FIBROMYALGIA STUDY

We are recruiting participants for a research study which has been approved by the HS-IRB at the UW-Madison. Eligible are female patients diagnosed with fibromyalgia (FM) who have experienced some type of childhood maltreatment in their family. We are assessing two 24-week educational programs: One is on social difficulties within your family relationships and the other is on fibromyalgia health.

Participants must meet the following criteria:

1. FM diagnosis by a physician of 2 or more years, or had symptoms for 2 or more years (we will need to verify the diagnosis in this case).

2. No other chronic medical condition, such as diabetes, rheumatoid arthritis, lupus, or severe osteoarthritis.

If you are interested in participating in this study, please contact Yu-Rim Lee by phone at (608) 238-1863 or by email at lee15@wisc.edu.
