Cancer Epidemiology Assistant/Associate Member Faculty Position
Fred Hutchinson Cancer Research Center

The Division of Public Health Sciences at Fred Hutchinson Cancer Research Center invites applications for a faculty position at the Assistant or Associate Member (equivalent to Assistant or Associate Professor) level depending on qualifications. We seek candidates who share our goals to advance an understanding of the etiology of cancer and survivorship. Areas of particular interest include, but are not limited to molecular and genetic epidemiology, integrated tumor epidemiology, pharmacoepidemiology; use of electronic health records, mobile technology, and other novel biomedical data sources.

The successful candidate will develop a dynamic independent research program and will join in collaborative multidisciplinary and translational endeavors pertinent to our mission of reducing cancer incidence, progression, and sequelae through the identification of risk determinants and translation of discoveries into preventive strategies. Applicants should have a doctoral (PhD or MD with MPH/MS) degree or equivalent training in cancer epidemiology (or a related discipline) and relevant research experience.

Fred Hutch’s Division of Public Health Sciences is home to an extensive portfolio of population sciences research, large biospecimen and data repositories, a SEER cancer registry, a prevention center designed for intervention research, and a large multidisciplinary faculty. Fred Hutch, together with the University of Washington, Seattle Children’s, and the Seattle Cancer Care Alliance, is an NCI-designated Comprehensive Cancer Center with active training programs for graduate students and postdoctoral fellows. Opportunities exist for joint and/or affiliate appointment in Fred Hutch’s Divisions of Clinical Research, Human Biology, Basic Sciences, or Vaccine and Infectious Disease, as well the University of Washington, depending on mutual interest.

Please submit all application materials including cover letter, curriculum vitae, a statement describing current and future research interests, and three references to our on-line website. Please direct any questions related to this search to Teri Martinez. The applicant review process begins as applications arrive, but any application received by Dec 1, 2018, will be guaranteed consideration for the position. Applications that arrive after that date will be considered as long as the position remains open.

Fred Hutchinson Cancer Research Center is an equal opportunity/affirmative action employer. The institution is building culturally diverse faculty and strongly encourage applications from female and minority candidates.
