Electives for MS/PhD in Population Health:

Epidemiology option appears on transcript and the requirement on the below list has to be fulfilled. Other elective lists are FYI and provide suggestions for concentration and for meeting total credit requirements for MS or PhD. Specific courses offerings vary and change, and students are strongly recommended to check the UW Course Guide website for the most current information. Course descriptions are sometimes available at the links provided, which may also list additional courses of interest.

**Electives for Epidemiology Option (MS requires 2 of these and PhD requires 3)**
