HIP Releases New Patient Stakeholder Toolkit

The Health Innovation Program (HIP) has released a new toolkit in conjunction with the Wisconsin Network for Research Support (WINRS). Developed in response to increasing interest in stakeholder engagement across the research spectrum, the toolkit is intended to help researchers prepare patient stakeholders to effectively engage in the planning and conduct of research studies.

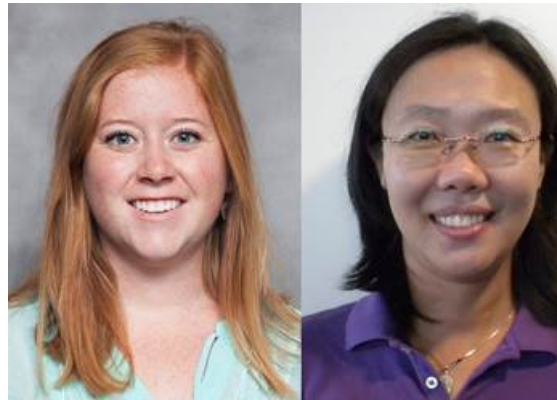

Patient advisors being trained to use the toolkit

SHOW Update: SHOW is Ten years Old!

Happy Birthday SHOW. This December the Survey of the Health of Wisconsin (SHOW), the only statewide health examination survey and research infrastructure of its kind, has been in the field for over ten years. Throughout this ten year period SHOW has collected data on over 5,400 adult and 800 children residents and built a state-of-the-art biorepository.

Read more about the work SHOW has done, and future SHOW projects here:
